

SchmartBOARD™ NEWS

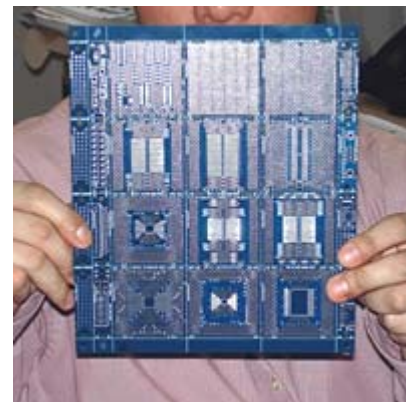

Special Offer

While Supplies Last

Buy \$50 of SchmartBoard products from SchmartBoard or any SchmartBoard distributor and we will send you a full panel of 1st generation SchmartBoard products. This panel represents every board from part # 201-0001-01 through 201-0108-01.

Bought as individual boards, you'd pay \$80. You can keep it as one piece or break it apart and use the individual pieces.

To take advantage of this special, fax a copy of your receipt with your name, mailing address, phone and e-mail address to 510-659-1644 with topic "Free Panel Offer" within 30 days of your purchase.

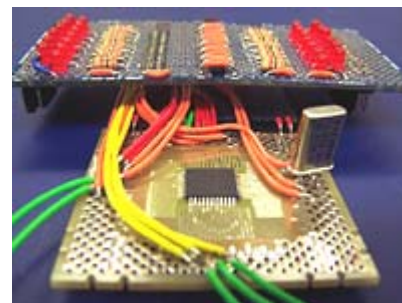

See us at Fry's Electronics

For those of you in the Bay area, SchmartBoard will be at multiple Fry's locations in March. We will be demonstrating SchmartBoard|ez technology by allowing you to give it a try. The technology makes it possible for virtually anyone to hand solder surface mount components--even .4mm ICs.

- Friday March 3rd, we will be at the Campbell location: 600 E. Hamilton Avenue Road from 10:30 to 1:30
- Friday March 10th, we will be at the Palo Alto location: 340 Portage Avenue 10:30 to 1:30
- Friday March 17th, we will be at the Concord location: 1695 Willow Pass Road 10:30 to 1:30

SchmartBoard|ez in The Tech Museum of Innovation

The SchmartBoard|ez technology is now being demonstrated in The Tech Museum of Innovation in San Jose CA through June 2006. As one of the 2005/2006 Inny Award Winners, SchmartBoard's technology was chosen as one of the best at the Fall 2005 Demo show in which the technology was launched in September 2005. Those who come to visit will be able to see the technology demonstrated, and leave with a limited edition SchmartBoard key ring in which a chip is hand soldered, using the "ez" technology. One of the sample circuits being displayed at the exhibit will be this Microchip based board that demonstrates multiple LED arrays. The board was designed and built by SchmartBoard user: Russell Pead of the Worcester Polytechnic Institute in Massachusetts. Our engineers were very impressed with the design.

Schmartboard March Contest Winner

This month's winner of a \$30 combo pack is Professor David L. Livingston of The Virginia Military Institute.

YAHOO! GROUPS

We have a program to reward those who are active in our Yahoo Groups community. This month's winner of a SchmartBoard \$30 Combo Pack is Ken Bahadur of Mississauga, Ontario.
