New Product Line - Jumper Hacker Kits

We have release a family of what we call **"Jumper Hacker Kits."** They are 1" long heat shrink tubes with long headers. We call them hacker kits because they are just in a quick convenient format to allow you to "Hack" your jumpers. Turn a female into a male, connect two together, color code your jumpers to differentiate signals or anything else you can think of that you need on the fly. Each kit includes 42 tubes of one of seven colors or an assortment plus a row of extra-long headers for $5.00.

Sneak Peak, Schmartboard to Release Raspberry Pi in April

We will soon release a whole family of Raspberry Pi protoyping products. Like with our Arduino family, Schmartboard will be the only solution to hand solder surface mount components such as QFN or with pitches of .5mm. Just an FYI...these will ship with a major flaw. Our engineer did not know there is a "P" in Raspberry and our silkscreen will attest to it. Maybe this will be a collector's item one day. Here is a list of the products to be release:

Schmartboard has partnered with **ShareaSale** to offer an affiliate marketing plan. Sign up there as an affiliate and add a Schmartboard banner to your website or blog. If someone clicks through and orders, you get a **20%** commission. In fact, if you are Schmart, you'll use your own Banner Link to get a **20%** rebate on your own Schmartboard orders. Let us know that you have added a banner and we will link your page on our resource page to get you more hits and a higher rating.

Build Your Next Circuit For Free...In Fact Get Paid!

Schmartboard would like to nudge you to publish your next Schmartboard Project online to share with the world. What do we mean by nudge? How about free Schmartboards to build the project with and **$100** when completed?

Fill out this form be as detailed as you can. If we give you the go ahead we will need you to supply a schematic and Bill of Materials (with Schmartboards listed). We will send you the Schmartboards to build your project. When finished with the project, we will need you to supply a write up with details, and instructions, photos, schematic, Bill of Materials, video and code (if applicable). We will then send you **$100** via Paypal. Once you have successfully completed one project, you will almost automatically be approved for your next.
