## Schmartboard Announces Educational Program

Fall is almost here. That means football.... and also school time. Schmartboard's new "Education Program" rewards universities, colleges and other education institutions for using Schmartboard. It is a free, no obligation program that is a no-brainer for educators.

## Schmartboard Releases First Populated I/O Board

Why reinvent the wheel?! SchmartBOARD has released a SchmartBOARD prototyping board that is populated with components for RS232 I/O functionality. The circuit on this board is centered on Analog Devices ADM202E RS232 controller chip. As with all Schmartboards, this populated board will mechanically connect to other Schmartboards utilizing Schmartboard's patent pending technology. The suggested retail on the RS232 module is \$15.00.

## Schmartboard September Contest Winners

### **Professional Engineers**

Ray Conley-Argonne National Lab, Argonne IL  
Mark Gramer-All Aerospace and Technologies Corp.,  
Albuquerque NM

### **Students**

Aaron Seigler- New York Institute of Technology  
Albert Killian- ITT-Tech

### **Hobbyists**

John Helmuth- Microdental Laboratories, Stockton CA  
Greg Bloom- Modine Mfg. Co., Racine WI
