SchmartBOARD Ready to Pursue Investment

Fremont, CA (January 5th, 2004)- SchmartBOARD has announced our intention to pursue investment partners. Unlike other seed level opportunities where a product has not yet been developed, Schmartboard has self-funded the product development, legal fees, initial marketing, and market development of the product.

The patent pending product is shipping and the advantages of the solution have spread through the press and word of mouth. Now that the concept has been proven, Schmartboard is pursuing investment to develop the product road map, successfully market the product line, and expand internationally. Interested parties should contact Andrew Yaung via e-mail for a business plan or questions.

About SchmartBOARD

SchmartBOARD™ is committed to helping engineers, students, and hobbyists develop electronic circuits faster, easier, and less expensively than previously possible. Schmartboard's patent pending *Electronic Circuit Building Blocks* makes this possible. More information about Schmartboard can be found at www.schmartboard.com
