**SchmartBoard Signs J-Tron To Sell Full Line**

**Fremont, CA – April 12, 2006** -SchmartBoard, the developer of a new technology that has significantly simplified the creation of electronic circuits for hobbyists and electronic engineers, has signed Elmwood Park, NJ based J-Tron as an authorized distributor.

Schmartboard is not looking for the typical distribution partner. According to Neal Greenberg, SchmartBoard's VP Sales and Marketing, "Schmartboard is targeted towards hobbyists and students as well as engineers. We seek distributors who can service both types of consumers. J-Tron seems to perfectly fits our distribution mold."

According to Jim Klimko, J-Tron's owner, " J-Tron, Inc. is very excited to add the full line of SchmartBoard products to offer for our customers. SchmartBoard's EZ technology approach for soldering small devices will benefit everyone working with surface mount items. This will be especially helpful and very affordable for students and hobbyists."

The SchmartBoard solution allows one instead in a matter of hours to put together a board and instantly make modifications as one needs to. SchmartBoard's new product line makes it possible for virtually anyone to hand solder integrated circuits (ICs), even BGA (Ball Grid Array). Based on surveys of companies and universities, SchmartBoard believes that this product will have a huge impact for both industry and academia.

**About SchmartBOARD ([www.schmartboard.com](http://www.schmartboard.com))**

SchmartBoard is committed to helping engineers, students, and hobbyists develop electronic circuits faster, easier, and less expensively than previously possible. At SchmartBoard, our three-word mission statement is "Electronics for Everyone".

**About J-Tron([www.j-tron.com](http://www.j-tron.com))**

J-Tron, Inc. has been in business for 11 years and offers over 20 years experience in the electronics industry. As an Authorized stocking distributor, we offer a complete line of sockets and interconnects from Cambion, Components Corp., and Keltron Connectors. We also stock a large variety of resistors and capacitors from Xicon Passive Components and NTE Electronics. We are an Authorized distributor for Waldom Electronics and can offer interconnects from AMP and Molex.
