## Build Your Next Circuit For Free...In Fact Get Paid!

Schmartboard would like to nudge you to publish your next Schmartboard Project online to share with the world. What do we mean by nudge? How about free Schmartboards to build the project with and \$100 when completed?

**Fill out this form** be as detailed as you can. If we give you the go ahead we will need you to supply a schematic and Bill of Materials (with Schmartboards listed). We will send you the Schmartboards to build your project. When finished with the project, we will need you to supply a write up with details, and instructions, photos, schematic, Bill of Materials, video and code (if applicable). We will then send you \$100 via Paypal. Once you have successfully completed one project, you will almost automatically be approved for your next.

We may accept a project that is simple to advance. Brownie points if it uses our development boards such as Parallax, PSOC, PIC or T.I. The Bill of Materials portion that is supplied by Schmartboard can include any Schmartboard prototyping board, development board, jumpers and headers. You supply anything else (Components, hardware, battery, etc.).

Schmartboard will publish and promote your circuit. You have the right to do the same. In some instances, Schmartboard may offer to work with you to turn the project into a product and profit share with you. By accepting receipt of payment you give Schmartboard to promote and publish your circuit, your name and all related documents.

## February Special - The perfect Jumper/Header Combo!

Buy our super versatile daisy chained jumpers at 20% off and we will send you a **pack of our most popular headers to go with it for free**. The headers are extra-long on both sides which make them perfect for prototyping. These super versatile daisy chained jumpers are perfect for jumping multiple circuit points such as power or ground. If you want a clean circuit, whether on a Schmartboard or breadboard, this is a perfect combination. As with all Schmartboard Jumpers, we do not skimp on the quality. Schmartboard's jumpers are of a higher quality those you will buy from some other popular sites. Don't take our word

for it. See for yourself and you will be a believer, but act now, February is a short month! [More Information](#).

**To those of you who have been in a deep freeze this winter, Professor Schmart says: Stay strong and safe. Spring will soon be here.**

## A personal note to our valued customers

As a small but innovative company, we rely on our happy customers to tell their friends and colleagues about Schmartboard. The best place to direct them is to receive a **[free demo board and chip](#)**.

**Additionally**, we invite you to subscribe to any of our social media sites. If you choose to leave a kind word in the comments section, we would most appreciate it!

**Lastly**, Schmartboard started originally as an engineering services provider. We still offer PCB Design, fab, assembly, and other services. **[Please consider getting a quote](#)** from us for your next project. We are good at what we do and priced aggressively.
