

# SchmartBOARD™ NEWS

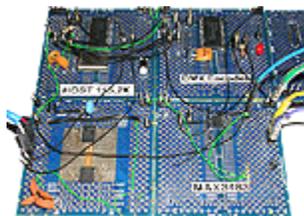

St. Patrick's Day

## St. Patty's Day Special!

You know the famous Old Irish saying: "*Schmartboard Go Bragh*", (SchmartBoard forever). To celebrate we'd like to give you some lucky charms. For every SchmartBoard purchase of \$10 or more in March, we will send you a free pack of SchmartBridges. SchmartBridge is what physically connects the SchmartBoards together.

One other thing; Should you be so inclined to celebrate this month.. please no SUI's. Yes, no soldering under the influence!

All you need to do is fax us (510-659-1644 ) your receipt from Schmartboard or any Schmartboard distributor, showing the sales with your name, address, phone, and e-mail. Put "March Special" on the cover sheet. The receipt must be dated March 2005.

## Show us your Schtuff

We would like to put your SchmartCreation online for all to see. We will happily reward you for your efforts. In February we got a submission from Bob Tryon of Layton, UT. Schmartboards used: 201-0004-01 (3), 201-0006-01 (1), 201-0003-01 (1) for 3.3v regulator (SOT223), 201-0001-01 (1) for Z8 programming cable header, 201-0100-01 (1) for power distribution.

## Schmartboard Beta Testers Still Needed

We are still looking for Beta-Testers, especially university instructors and engineers. Details are available at our Web site.

## **Schmartboard March Contest Winner**

This month's winner is John Castner of Honeywell!
