

SchmartMoney Program Earns You Smart Money

The SchmartMoney program is like the airline mileage programs in that you earn SchmartDollars (points) with every purchase of SchmartBoard products and services. Where it is different is that you can turn the SchmartDollars in for merchandise but also real cash. There is no downside or obligation in signing up. If you buy any SchmartBoard product and aren't signed up, you are losing out big time.

New Products

Schmartboard has released a number of new products.

- 1) A new line of SMT Connector prototyping boards, supporting .4mm, .5mm, .8mm, 1.0mm, and 1.27mm pitched connectors from companies such as Molex, Tyco, Samtec and Hyrose. The boards retail for \$9.99 each, or in 10 packs for \$80.00.
- 2) Two new combination packs. The first is a master combo pack of the new SMT Connector boards which consists of two of each (10 in all) for \$80.00. The second combo pack is what we call the "Best Seller's Combo". We took our best selling items, which would normally cost \$183.90 if purchased separately, and priced them at just \$125.00.

Price Reduction

Our Power regulation boards have been cost reduced and we are passing the savings on to you. Part number 710-0003-01 through 710-0003-06 which are power regulators ranging from 1.5 through 9 volts, has been cost reduced from \$15 each to \$10 a piece.

Clearance Reminder:
