

# SchmartBOARD™ NEWS

## See Us At The Maker Faire

For those of you in the Bay Area, SchmartBoard will be at the Maker Faire next month. Look for us at the booth of Nuts and Volts/Servo Magazines. We plan to make a major announcement there in collaboration with these great electronics/robotics magazines.

Maker Faire is the premier event for grassroots American innovation. The event started in San Mateo, California in 2006 and expanded to Austin, Texas in 2007. Held annually in each of these locations, the event may expand elsewhere in the future. Maker Faire is supported by Make Magazine and Craft Magazine and O'Reilly Media

the premier information source for leading-edge computer technologies. The company's books, conferences, and web sites bring to light the knowledge of technology innovators.

## Maker Faire

Build. Craft.  
Hack. Play.  
**MAKE.**

May 3 & 4  
2008

Bay Area, CA

San Mateo  
County Fairgrounds

## Education Program

Electronics Education generally teaches electronics theory, not hand soldering skills. SchmartBoard|ez technology makes it easy to hand solder SMT parts. Thus, SchmartBoard opens up opportunities for students to successfully utilize today's technology for senior projects and other class requirements.

We offer a 20% discount to universities and university students. Other advantages are available to institutions who sign up for the program including some demo boards for lab's to demo to students. To take advantage of the program, please fill out our education program application

## Elvis Sighting in Fremont, CA

Our wallpaper this month features the king....sort of. Download this wallpaper or our screensaver today. If you have an idea for future wallpaper, let us know. We'll reward you if we are able to use it.

## SchmartBoard April Contest Winner

This month's winner of a \$30 combo pack is Thomas Edwards of PBS. Make sure you are registered to be our next winner!
