

SchmartBOARD™ NEWS

SchmartBoard Announces Schmartie Award Win one of 5 Apple iPod nanos!

Every entrant receives free SchmartBoards and a free Professor Schmart T-Shirt!
How it works:

1. Enter the SchmartDeveloper Program
2. Post your "SchmartSchematic and Bill of Materials as explained in the SchmartDeveloper program on your SchmartDeveloper page by November 15 2006
3. In the month of December, registered SchmartBoard consumers will vote for their favorite schematics
4. All SchmartDevelopers who post schematics, will receive free SchmartBoards to build and prove the schematic and a Professor Schmart t-shirt
5. The top five(5) vote getters will receive an Apple iPod nano (To be announced in January 2007)

Sponsors of the program include Hobby Engineering, Intellect Lab, Parallax, R&D Electronic Parts, Titan PCB and more to come.

SchmartBoard to Market Development Boards for Analog Devices

Well SchmartBoard users...It would appear that Analog Devices has a lot of respect for the high caliber of our customers (yes you!). Analog Devices has asked SchmartBoard to supply ADI development boards to customers worldwide. The first board available is the Blackfin® Compact Flash / NAND / IDE EZ-Extender™ Daughter Board. There should be many more ADI boards available at our website soon.

SchmartBoard Has Successful Appearances at the Maker Faire, Frys Las Vegas and Electronic Distributor Show

SchmartBoard appeared at the First Annual Maker Faire in San Mateo, CA. Over 200 people got to try their hand at hand soldering SMT parts via SchmartBoard|ez technology.

SchmartBoard also had a booth at the 2006 Electronic Distribution Show in Las Vegas and an appearance at Frys Electronics in Las Vegas. Professor Schmart has returned with the shirt on his back. His only comment is what happens in Vegas, Stays in Vegas.

Schmartboard May Contest Winner

This month's winner of a \$30 combo pack is Scott Dupay of Minco Products in Minneapolis MN.
