

# SchmartBOARD™ NEWS

## See Us At The Maker Faire

For those of you in the Bay Area, SchmartBoard will be at the Maker Faire May 3rd & 4th. Look for us at the booth of Nuts and Volts/Servo Magazines. SchmartBoard will be introducing Solder By Numbers. We will be converting some of the circuits published in Nuts and Volts Magazine and Servo magazine into this new format, which makes it possible to solder together circuits without having the ability to read electronic circuit schematics.

## Beta Testers Needed!

SchmartBoard is looking for beta testers for a future electronics related social network. We need people of all levels of experience from novice to pro. To be considered as a beta tester go to [www.solderbynumbers.com](http://www.solderbynumbers.com) to sign up today. The beta test should start in mid-July.

## Social Networking

Are you social networking? I am on LinkedIn, Facebook, Biznik, Plaxo, Meetup, and I'm sure many others that I have forgotten about. It is hard to keep track! SchmartBoard is working on some of these features for a future website. I have been playing around on many of these sites to learn as much as I can about the features, technologies, and some of the strange things people are willing to do or tell...just a few million of their closest friends. This current revolution may soon dwarf the web 1.0 phenomenon that we have very recently lived through. With this in mind, I'd like to invite you all to become a fan of our humble SchmartBoard fan page on Facebook. In addition, if you are on LinkedIn and if you feel so inclined, link up with me as a client of SchmartBoard. Neal Greenberg-SchmartBoard

## The Comedy Circuit

This month we feature the Professor during one of his comedy gigs. They say good comedy is funny because it is based on truth...we would concur. Download this wallpaper or our screensaver today.

## SchmartBoard May Contest Winner

This month's winner of a \$30 combo pack is Austin Vlaadingerbroek of Northrup Grumman. Make sure you are registered to be our next winner!

## New Distributor In Canada

Arctan has full line of SchmartBoard inventory. Arctan is your source in Canada for electronic design, with tools, reviews, links, parts, and ideas.
