New Products - Breadboarders Arise!

Breadboarders Arise! Today, your shackles are released as you no longer have to search for that elusive DIP version of components. Rise above your peers and use the IC of your choice. Create a breadboard circuit with an accelerometer in a QFN package, a microprocessor in a QFP package or a sensor with a .5mm pitch.

If you can dream it, you can build it, because Schmartboard and only Schmartboard has opened up the most current chip technology to you, the maligned and often forgotten breadboarder. Rejoice my friends...your day has come. We now have SMT to DIP boards that support SOIC, SOT, SC70, QFP and QFN. More will be released in May and the upcoming months until we support all of the most popular chip packages.

[More Information](#)

[This Week's Special - 25% off a 10 Pack of our bestselling board.](#)

The SchmartBoard through board is different than other through hole boards. It is pre-traced and has staggered holes for more flexibility. At \$30 for a ten pack, you can't go wrong on these. Stock up and save.

Get Your Free SchmartBoard T-shirt

SchmartBoard Strategic Partners

E-mail us a photo of your SchmartBoard project with a description, your name, address, preferred size (we'll do our best) and that we have permission to post it and we will send you this nifty t-shirt. E-mail photo and required information to neal.greenberg@schmartboard.com.

While supplies last.

Partner With SchmartBoard and Share the Profits

SchmartBoard has from time to time partnered with our customers to design boards. The way this works is a proposal is made to us to design a development board as an example. We ask that person to convince us that it is a product that SchmartBoard should have and that our "ez" technology adds value. (We avoid commodities, if we can't make it better, we don't do it). If we decide to move forward, the proposer works with us to design a product. When the product is released, our partner share in the revenue with us on every unit sold...and of course gets a few for themselves.

If you have an idea and the expertise and time to work with SchmartBoard on it, drop us an e-mail. We'd love to discuss it with you. neal.greenberg@schmartboard.com

New Contest-Win an SMT to DIP Adapter

Each month through the end of 2011, we will give away an SMT to DIP adapter of one's choice. You only have to sign up once and will automatically have a chance to win each month. [Sign Up Today!](#)

This month's winner is Frank C. Froelich of Nexcore Technology, Inc. According to Frank, "They allow me to bring SMT parts out to a .1" interface for prototyping. I use them for prototypes of future products."

SchmartBoard now accepts Paypal for online orders. Additionally, we have added the option of USPS Priority Mail for domestic and international shipments. We offer free shipping for domestic and international orders of \$80 or more. Contact info@schmartboard.com for more details.

SchmartBoard, Inc. 111 Deerwood Road, Suite 235, San Ramon, CA 94583
