New Product Line - Raspberry Pi

We have releases a whole family of Raspberry Pi prototyping products. Like with our Arduino family, Schmartboard will be the only solution to hand solder surface mount components such as QFN or with pitches of .5mm. Just an FYI...these will ship with a major flaw. Our engineer did not know there is a "P" in Raspberry and our silkscreen will attest to it. Maybe this will be a collector's item one day. Here is a list of the products to be release:

- 710-0010-01** Raspberry Pi Prototyping Add-on Board(Board Only)
- 710-0010-02** Raspberry Pi Prototyping Add-on Board With Header and Breadboard

New Schmartboard Affiliate Program

Schmartboard has partnered with ShareASale to offer an affiliate marketing plan. Sign up there as an affiliate and add a Schmartboard banner to your website or blog. If someone clicks through and orders, you get a **20%** commission. In fact, if you are Schmart, you'll use your own Banner Link to get a **20%** rebate on your own Schmartboard orders. Let us know that you have added a banner and we will link your page on our resource page to get you more hits and a higher rating.

Build Your Next Circuit For Free...In Fact Get Paid!

Schmartboard would like to nudge you to publish your next Schmartboard Project online to share with the world. What do we mean by nudge? How about free Schmartboards to build the project with and **\$100** when completed?

Fill out this form be as detailed as you can. If we give you the go ahead we will need you to supply a schematic and Bill of Materials (with Schmartboards listed). We will send you the Schmartboards to build your project. When finished with the project, we will need you to supply a write up with details, and instructions, photos, schematic, Bill of Materials, video and code (if applicable). We will then send you **\$100** via Paypal. Once you have successfully completed one project, you will almost automatically be approved for your next.

A personal note to our valued customers

As a small but innovative company, we rely on our happy customers to tell their friends and colleagues about Schmartboard. The best place to direct them is to receive a **free demo board and chip.**

Additionally, we invite you to subscribe to any of our social media sites. If you choose to leave a kind word in the comments section, we would most appreciate it!

Lastly, Schmartboard started originally as an engineering services provider. We still offer PCB Design, fab, assembly, and other services. **Please consider getting a quote** from us for your next project. We are good at what we do and priced aggressively.
