

### SchmartBoard Newsletter

### This Week's Special-30% Off Our Best Selling SMT Connector Board.

The SchmartBoard SMT Connector Board is the only way to easily prototype an SMT micro-connector from companies such as Tyco, Samtec, Molex and Hirose. This board, with a .5mm pitch is our most popular. It is also a great tool for connecting most LCD panels.

### Get Your Free SchmartBoard T-shirt

E-mail us a photo of your SchmartBoard project with a description, your name, address, preferred size (we'll do our best) and that we have permission to post it and we will send you this nifty t-shirt. E-mail photo and required information to [neal.greenberg@schmartboard.com](mailto:neal.greenberg@schmartboard.com).

While supplies last.

### Partner With SchmartBoard and Share the Profits

### SchmartBoard Strategic Partners

SchmartBoard has from time to time partnered with our customers to design boards. The way this works is a proposal is made to us to design a development board as an example. We ask that person to convince us that it is a product that SchmartBoard should have and that our "ez" technology adds value. (We avoid commodities, if we can't make it better, we don't do it). If we decide to move forward, the proposer works with us to design a product. When the product is released, our partner share in the revenue with us on every unit sold...and of course gets a few for themselves.

If you have an idea and the expertise and time to work with SchmartBoard on it, drop us an e-mail. We'd love to discuss it with you. [neal.greenberg@schmartboard.com](mailto:neal.greenberg@schmartboard.com)

## SchmartBoards at The Idaho State Convention

SchmartBoard user, Doug (W7DVR), represented SchmartBoard at The Idaho State Convention. According to Doug: "This convention is an Amateur Radio convention that covers Idaho and many of the surrounding states. We have vendors, manufactures, swap meet (selling personal new and used equipment), educational seminars, and guests from our national organization the American Radio Relay League. It is a three day gathering. Our seminar was on SMD. Many of our attendees have had experience building and soldering project for some time and are just now looking for experience with the SMD." If you have a local event and would like to represent us, drop us an e-mail and we'll explain the program for you. We'll get you some supplies and brochures.

## New Contest-Win an SMT to DIP Adapter

Each month through the end of 2011, we will give away an SMT to DIP adapter of one's choice. You only have to sign up once and will automatically have a chance to win each month. [Sign Up Today!](#)

This month's winner is Peter Boser of Rutgers University. According to Peter he'll build a headphone amp and says, "make it possible for a tube-audio person to deal with SMD technology!."
