

### SchmartBoard Newsletter

### July Special

100-1176-01 **10 Pieces of Red, White and Blue Female Jumpers With 3 Rows of Headers for \$12**

To celebrate America's independence, Schmartboard has bundled Red, White and Blue female jumpers at a price worthy of celebrating.

We hold these truths to be self-evident, that all jumpers are not created equal. (You will find that the female receptacles on Schmartboard jumpers are thinner than most on the market, which allow you to work better and easier in tight areas. They also fit snugly on .1" and 2mm headers. We challenge you to compare ours head to head with others because we know you will immediately understand the difference.) Schmartboard customers are endowed with certain unalienable rights, that among these are great products, great service and the pursuit of happiness. They are rated to handle the following specs: 28AWG, UL1007, 80 deg C, 300V.

### New Product Line - Raspberry Pi

We have released a whole family of **Raspberry Pi prototyping products**. Like with our **Arduino family**, Schmartboard will be the only solution to hand solder surface mount components such as QFN or with pitches of .5mm.

### Schmartboard Now At Amazon.com

At the request of many, Schmartboard is now available through [Amazon.com](http://Amazon.com). The majority of our products are listed and can be shipped worldwide at a reasonable cost.

### New Schmartboard Affiliate Program

Schmartboard has partnered with [ShareASale](http://ShareASale) to offer an affiliate marketing plan. Sign up there as an affiliate and add a Schmartboard banner to your website or blog. If someone clicks through and orders, you get a **20%** commission. In fact, if you are Schmart, you'll use your own Banner Link to get a **20%** rebate on your own Schmartboard orders. Let us know that you have added a banner and we will link your page on our resource page to get you more hits and a higher rating.

### A personal note to our valued customers

As a small but innovative company, we rely on our happy customers to tell their friends and colleagues about Schmartboard. The best place to direct them is to receive a **free demo board and chip**.

**Additionally**, we invite you to subscribe to any of our social media sites. If you choose to leave a kind word in the comments section, we would most appreciate it!

**Lastly**, Schmartboard started originally as an engineering services provider. We still offer PCB Design, fab, assembly, and other services. **Please consider getting a quote** from us for your next project. We are good at what we do and priced aggressively.
