

A MAJOR 1 DAY BLOWOUT SALE FOR FACEBOOK SCHMARTBOARD PAGE FANS ONLY! ON NOV 8th

In October, SchmartBoard had a one day sale. It was for our best selling through hole board which usually sells for \$5. Hundreds of them were swiped up by many smart Schmartboard fans for only \$1 each. We will again have a 1 day sale on November 8th. This time we will offer 6 different items up at 50 cents a board. The only catch is that you will only get access to this special if you have "Liked" us on our [Facebook Fan Page](#) to get instructions on how to take part. "like" us today to assure you can take part.

SchmartBoard to give away an SMT to DIP Adapter EVERY DAY!

SchmartBoard will give away 1 SMT to DIP adapter everyday to a [Facebook fan](#) for the rest of 2011 to introduce this Surface Mount Soldering remedy to the ailing masses. To be eligible you have to "Like" the [Facebook SchmartBoard page](#). Not a Facebook user? You can still win in the contest at the bottom of this page.

November Special - Our Popular Microchip PIC® Promotion is Back!

33% of our Microchip PIC Development Board This PIC Microcontroller Development board supports 116 different PIC Microcontrollers. This board is fully populated except for the PIC. You hand solder the PIC using our "EZ" technology, configure the jumpers for you PIC part number and start programming. At a suggested retail of only \$15, no other PIC development board can come close to giving you the flexibility and low cost as this product. This one board supports almost all of the 8 Bit PICs available in a 1.27mm pitch SOIC package type. (see list of supported devices)

The offer is good while supplies last.

Win a GreenArrays Parallel Processing Chips with a SchmartBoard

The new 202-0048-01, .4mm 88 Lead QFN Board was produced for the GreenArrays GA144 Mult-Computer Chip. In celebration of the partnership of SchmartBoard with GreenArrays, we will give away a SchmartBoard 202-0048-01 with a GreenArrays GA144 IC each week in the month of October and November 2011. According to M. Simon of EDN regarding this IC: "GreenArrays, the makers of the GA144 chip, announces an OEM partnership with SchmartBoard that will allow hobbyists and experimenters to get in on the fun provided by playing around with a chip with 144 cores that

can do around 90 billion instructions per second at a total power of under one watt (typical) while running at full clip and which only uses about 14 microwatts when everything is idle." Sign up today. Winners will be announced in our upcoming newsletters and weekly on the Facebook Fan Page.

The winners in October were: Benedikt Rochow of Sanmina-SCI in Madison AL, Per Ljung of Nokia in Berkeley CA, Ralph Brooks of The Georgia Institute of Technology in Lawrenceville GA, and Manfred Hild of Humboldt University in Berlin Germany.

Get Your Free SchmartBoard T-shirt

E-mail us a photo of your SchmartBoard project with a description, your name, address, preferred size (we'll do our best) and that we have permission to post it and we will send you this nifty t-shirt. E-mail photo and required information to neal.greenberg@schmartboard.com.

While supplies last.
