

SchmartBOARD™ NEWS

Remember, SchmartBoard Makes a Great Stocking Stuffer

"Tried out your board this evening - VERY COOL!, I'll show it around, Good work"- Tom Rowley, W2TER

"I have been making my projects on copper/etch boards for years. All of them have been dip/through-hole boards. Unfortunately, many wonderful ICs I'd like to use are only manufactured in surface mount, small pitch packages. I am getting frustrated. I believe that SchmartBoard may be the answer to all my dreams of using these chips that seem to be the domain of engineers and high-tech manufacturers. Maybe now I can design that 'World-Changing' project buried in the back of my head!" (somewhere) Michael Cimkowski, MiSys Consulting Service

Casting Call

SchmartBoard is making a video for use in marketing and the press. We need people in the bay area who have used SchmartBoard and would like to be on film speaking about the new SchmartBoard|ez. We need engineers, educators, hobbyists, and students. For consideration contact neal.Greenberg@schmartboard.com

SchmartBoard in The News

The Quest for a 21st Century Prototyping Board can be read in the Citizen Scientist. It is the story of how the SchmartBoard concept evolved into what it is today.

New SchmartDevelopers:

Joe Clark-Kansas City, MO USA

M.D. Mahbubur Rasheed - Dhaka, Bangladesh

Laribe Fabrice - Bordeaux France

Jerry Rutherford - Overland KS USA
