**SchmartBoard Newsletter**

New Products - IDC Connectors

As a service to our customers, we have answered a request of adding IDC connectors and ribbons to our offering. The can be seen listed towards the bottom of this **product category**. We have them available in 2 x 5, 2 x 7 and 2 x 13 configurations.

December Special

For the month of December our PIC® Development Board is 33% off! Our PIC Microcrontroller Development board supports 116 different PIC Microcontrollers. This board is fully populated except for the PIC. You hand solder the PIC using our "EZ" technology, configure the jumpers for you PIC part number and start programming. At the special price of only $10, no other PIC development board can come close to giving you the flexibility and low cost as this product. This one board supports almost all of the 8 Bit PICs available in a 1.27mm pitch SOIC package type.(see list of supported devices).

Happy Holidays from Schmartboard!!

A personal note to our valued customers

As a small but innovative company, we rely on our happy customers to tell their friends and colleagues about Schmartboard. The best place to direct them is to receive a **free demo board and chip**.

Additionally, we invite you to subscribe to any of our social media sites. If you choose to leave a kind word in the comments section, we would most appreciate it!

Lastly, Schmartboard started originally as an engineering services provider. We still offer PCB Design, fab, assembly, and other services. **Please consider getting a quote** from us for your next project. We are good at what we do and priced aggressively.
